

iOS MobilePASS+ Enrollment

1. Follow these step-by-step instructions to install the MobilePass Multi-Factor Authentication (MFA) Application on your iPhone
2. Once you've installed the MobilePASS+ Application on your phone, you will be enrolled and ready to use MFA

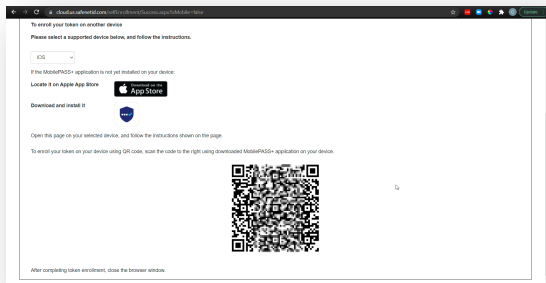

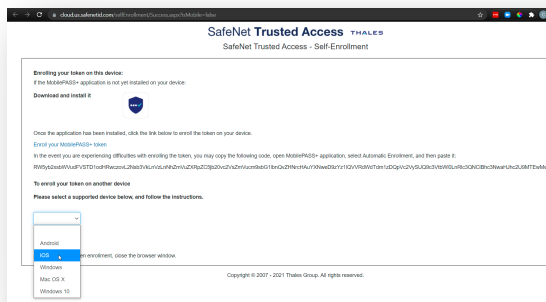

1. On your iOS mobile device, open the App Store and search for "MobilePass". On the Safenet MobilePASS+ app, click the cloud icon to download and install the app.

2. Open the email from SASUS, *Safenet Trusted Access Service Self-enrollment*, from your work computer. Within the email, click the hyperlink in the body.

3. In the web page that opens, click the drop-down under "Please select a supported device below, and follow the instructions" and select your device type (IOS). This will display a QR code.

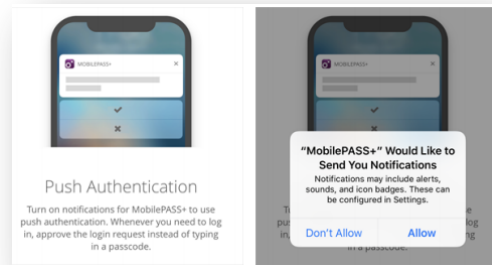

4. On your iOS device, open the MobilePass+ app you install in step 1. Look for the following app icon on your iOS home screen:

5. Click the Activate button within the MobilePass+ app. If prompted, allow MobilePASS+ access to the device's camera. Point the camera at the QR code.

6. If the Push Authentication screen is displayed, tap Use Push Authentication, and then tap Allow on the notification message.

7. On the Create a PIN code screen, enter a code in the PIN box, enter it again in the Confirm PIN box, and then tap OK.

Create a PIN code

Your administrator requires you to protect your token.

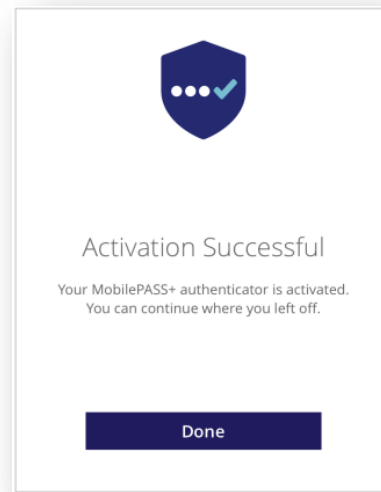

Token PIN

Confirm Token PIN

The PIN should contain 4 numeric characters.

OK

8. On the Activation Successful screen, tap Done. This completes the enrollment process.

The image shows a mobile application screen titled "Activation Successful". At the top, there is a blue shield icon with three white dots and a green checkmark. Below the icon, the text "Activation Successful" is displayed in a large, bold font. Underneath, a smaller line of text reads: "Your MobilePASS+ authenticator is activated. You can continue where you left off." At the bottom of the screen, there is a dark blue button with the word "Done" in white text.

Activation Successful

Your MobilePASS+ authenticator is activated.
You can continue where you left off.

Done

9. To confirm you've successfully enrolled, make sure you see the following in the MobilePASS+ app:
